Dear Tony and all classmates,

When Tony called me back today, it was very sad to hear that our good friend and classmate 韓國平(鈺元) had passed away on Sunday afternoon.

It is sad because you said that we have lost a friend and a classmate now. I want to thank you for keeping us updated about him, from time to time and now he is gone. I hope and I am sure all our classmates would hope too that he would rest in peace.

A footnote as my memory of 鈺元: During a classmate dinner party in LA last year as he was recovering from a stroke. He came to join us even though he was in no shape to come and that was only possible with the help of Ms. Han, his driver and his helper assistant. As I was sitting next to him, he tried to talk to me and I couldn't understand what did he try to tell me. Then, he picked up a pen and wrote on a piece of napkin. His writing was readable, and it read: 國海, when you go to Hainan, China can you help a University in Hai Kou to build a Science and Technology School? I told him that I would try when there would be an opportunity in the future. Then I remembered that his hometown is Hainan, China. So as mine. This conversation in writing tells me that his mind was very clear although his movements were restricted, and as before he always think of helping others and is a person with a lot of vision.

To show our love to him and thank him for initiating the Tri-Dung AI Association here in LA, I would like to suggest that we together send him a bouquet to his funeral. For that, I wonder if Tony would be so kind to take the lead and order the flowers for us. Each of us who would like to join in will send you a check or money order to take care of the final bill.

Sincerely,

國海 (Frank Ngo April 18, 2011)
